What Information Do We Collect, Where Do We Get It, How Is It Used?

We Collect Some Information From All Users of Our Service:

RentalBeast Data Security and Privacy Policy

Like many online services, we use technologies like session and persistent cookies, web beacons (tiny image files on web pages that communicate information about the page viewer to the beacon owner), log data, and third-party analytics services to collect and analyze information about all Users of our Services. This includes information like Users' search preferences, interaction with ads on our Website, and location.

Our servers automatically record information ("Log Data") created by your use of the Services. Log Data may include information such as your IP address, browser type, operating system, the referring web page, pages visited, location, your mobile carrier, device, search terms, and cookie information. We receive Log Data when you interact with our Services, for example, when you visit our Websites, sign into our Platform, or interact with our email notifications. We use Log Data to provide our Services and to measure, customize, market and improve them.

Cookies are small data files that we transfer to your computer. We use "session" cookies to keep you logged in while you use our Services, to better understand how you interact with our Services, and to monitor aggregate usage and web traffic information on our Services. We use "persistent" cookies to recognize you each time you return to our Services. For example, we create a persistent cookie that includes some basic information about you, like your most recent search and whether an agent responded to a query you sent using RentalBeast's services for Renters. We use this persistent cookie to remember your preferences and, if you create an account, to make your user experience consistent after you register.

Most Internet browsers automatically accept cookies, but you can change your settings or use third-party tools to refuse cookies or prompt you before accepting cookies from the Websites you visit. You can also use your browser settings or other tools to delete cookies you already have. Please be aware that some parts of our Services may not work for you if you disable cookies.

Information We Collect from Users with RentalBeast Accounts: When using our Services, you have the option to create an account or register using Facebook, LinkedIn or other third-party identification tools. If you choose to create an account, we ask you to provide us with some limited personal information like your name and email address; if you join via a third-party tool, we will ask you to provide us with some limited personal information like your name and email address. We may use this information to contact you or share with third parties who may contact you about the services on our Website in which you have expressed interest, or to suggest RentalBeast or other tools and services to improve your home buying, selling or renting process. If your browser permits the use of cookies, we will collect and store additional information using persistent cookies, as described above, and associate it with your account even if you are logged out.

Information We Collect from REPs: If you create a REP account with us, whether as a landlord, agent, or subscriber, we will ask you to provide certain information in order to set up your account. We ask all REPs to provide a name, a company (if available), a phone number, and an email address. We also ask agents to provide a real estate license number and additional

information related to their business background. If you create a paid REP account and become a subscriber, we require you to submit all of the information required from landlords and agents as well as a description of your campaign. We will also collect financial data like credit card information and billing addresses from you and other subscribers, so that we can handle billing, and information about how you use the Services and specific features comprising the Services. If you are a subscriber, a RentalBeast representative may call you to verify your information.

Additional Information About You that We Obtain from Third Parties: We may sometimes obtain information about you from third parties and use it to help us provide you with the Services you want, and to help our agents and partners serve you better. For example, our partners may help us provide predictions of Renters' income range and how likely you may be to purchase a home. We will share this augmented data with selected REPs (subscribers or other partners) whom you choose to share information with by contacting them through the RentalBeast Services, as well as with the service providers and strategic partners referenced above in the Summary.

Information We Collect When You Use the RentalBeast Mobile Application: When you use the RentalBeast mobile application, we may collect Log Data specific to your mobile device (Mobile Log Data"), like your mobile device model, your operating system, your device ID, whether you are logged in or not, and information about how you use our app and mobile site, such as what properties you are viewing and whom you contact through the app. As explained below, we need this information in order to analyze how mobile users interact with our Website and Services so we can improve our Services and the ads we show you. This information is stored with your RentalBeast account.

Information We Collect When You Use the Platform: When you use the RentalBeast software-as-a-service Platform, we may collect information such as your username or e-mail address, password, browser information, whether you are logged in or not, and information about how you use the Platform. We use this information to provide and operate the Platform, to analyze how users use the Platform so we can improve its performance, and to compile reports and other data analytics which we share with service providers and strategic partners so that they may improve the services they provide to you.

Location Data: If you provide location information (like a ZIP code, street address, or even just a city) during the registration process or at any other time via your account settings, we will store that information and associate it with your account.

If you use our mobile Website or app, we will collect location data directly from your device automatically if your device allows us to do so. In some circumstances, you may have to opt into sharing your location data with us. Additionally, your mobile device may provide you with choices about how and whether location data is shared with us.

RentalBeast Data Security and Privacy Policy

We may use and store information about your location to provide localized features, to analyze our Services with the help of third-party analytics services, to provide you with relevant advertising and marketing materials, and otherwise to improve and customize our Services.

We never make this information visible to anyone other than our payment processors and never communicate it over a non-encrypted connection. If you pay by credit card, the full credit card number is never seen by anyone inside our company, once entered and submitted, except by the credit card processor for the purposes of authorizing, clearing and reversing charges to your credit card. We may use Stripe (<https://stripe.com/>), Dwolla, Inc. ("Dwolla") (<https://dwolla.com>) or other similar services to process our Users' payment transactions.

In order to use certain payment functionalities, such as payment through ACH, you must open a "Dwolla Platform" account provided by Dwolla and you must accept the [Dwolla Terms of Service](#) and [Privacy Policy](#).
